ANIMATION WORKSHOP

How to Make an Animated Film?

During the workshop, we will go through all the stages of making an animated film, from the initial idea to its realization. The aim is to create (very short) animated films, but, even more importantly, to explore the process of developing an idea and become familiar with working in different animation techniques. Animation is always fun, but at the same time it gives us the opportunity to talk about topics that we consider important.

This workshop will include young people aged **12-18 years old**.

Ana Nedeljković

She graduated in painting from the Faculty of Fine Arts in Belgrade.

She was awarded a PhD in art practice at the same faculty.

She is a visual artist, director, animator and educator.

Nikola Majdak Jr.

He has an MFA from the Faculty of Dramatic Arts in Belgrade, camera department. For the past 30 years he has been a freelance cameraman, animator, director and lecturer.

TUMO Tirana is a free, innovative center for young people aged 12-18, located in the Pyramid of Tirana. It gives young people the opportunity to explore technology, creativity, and digital skills through a modern, hands-on, and personalized learning model.

At TUMO, young people can develop their skills in areas such as programming, game development, animation, graphic design, photography, filmmaking, music, robotics, 3D modeling, drawing, and AI, learning through projects, workshops, and hands-on experiences.

TUMO Tirana is a place where young people discover their passions and turn them into real skills for the future.
